4. SAFETY INSTRUCTIONS - to avoid accidents – act upon following safety instructions

- For safety it is necessary that only adults carry out the assembling of Highwaykick.
- Before your kid uses Highwaykick make sure that seat and tread are clicked into place correctly. Furthermore make sure all wheels are fixed correctly and aren't showing signs of wearout.
- Make sure that your kid is wearing shoes with rubber sole, a helmet and elbow-, wrist- and kneeprotectives.
- Make sure that your kid is not driving in steep areas since moving too fast is increasing the risk of injuries.
- Highwaykick is provided with brake-spring brakesystem.
To slowdown step on brake with left or right foot.
- As the brake is getting very hot please explain your kid that direct contact after braking is dangerous and leads to burns, due to that your kid should not brake constantly.
- Never move faster then 10 km/h (6,2 MPH).
- Make sure your kid is not moving on streets or areas with traffic.
- Always follow traffic rules and regulations in public areas.
- Not more than 1 kid at a time is allowed to move with Highwaykick.
- Never allow your kid to move at dawn or during nighttime.
- After every use clean your Highwaykick with a wet or watery textile, don't forget to clean and grease the bearings regularly.
- Check all screws and tighten them at least every 3 weeks.
- Highwaykick is not to be used on wet, oily, sandy, dirty, icy, rough or bumpy pavement.
- The force of the screw nuts and other fixing elements will loosen by time therefore they have to be controlled regularly.
- Remove developed sharp edges to avoid injuries.
- Make sure the product (Highwaykick) is used with caution since skill is required to avoid falls or collisions which could cause injury to the user and/or third parties. Make sure that your kid is not carrying out dangerous manoeuvres. Manner of driving has to fit individual skills!
- Do not change anything at Highwaykick otherwise there is no warranty or guarantee for safety.

5. WARNING NOTICES - WARNING!

- Same as riding a bicycle, skateboarding or inline-skateing and even with the best driving conditions it is never fully hazard-free to move with Highwaykick and may lead to accidents.
- Always equip your kid with a certificated helmet while using Highwaykick.
In case of insecure drops there is a possibility of severe and deadly injuries.

- Moving at dawn, during nighttime or while limited visibility conditions is dangerous and increases risk of accidents and injuries.
- In wet weather, the risk of accident and injury is much greater.
- Please make sure your kid is never moving without protective gears, furthermore it is recommended wearing noticeable and reflective clothes.
- Please pay attention to your fingers while using the adaption mechanism. Carelessness at changing from the Scoot to Ride mode of Highwaykick creates danger of bruises.
- Never leave your kids unattended or without wearing complete protective gear and adequate footwear while moving on Highwaykick. Also make sure kids are not moving during nighttime or at traffic areas.
- Pay attention to the brake, it is getting hot during use.
- Highwaykick is only to be used by kids between 1 to 5 years and with a maximum bodyweight of 50 kg (110lbs).
- Always supervise your child while it is using the product Highwaykick.
- Do not use on public highways, roads or traffic.
- It is dangerous to use toy scooter on public highways.

6. CARE - WARRANTY

CARE - Do a regulary check on all screws to make sure they are tightend correctly. Also check on wheels and change them if necessary. All spare parts available are to be found in section 3 and on www.scootandride.com. After every use of Highwaykick it should be cleaned with a wet or watery textile and undertaken an optical control.

LIMITED WARRANTY - The product Highwaykick applies to the minimum statutory warranty of the particular country on material- and productiondefects. During this time it is in Scoot and Ride's discretion if products are repaired or replaced. This warranty is not covering defects originated in improperly use such as uncorrect assembling, careless handling or common wearout.

WARRANTY ADJUSTMENTS - Warranty claim is solely coming into effective with proof of purchase. Due to that it is absolutly nessecary to keep your receipt. In case of warranty claim Scoot and Ride or the responsible dealer is deciding if Highwaykick will be repaired or replaced.
